Work Visa
Transferable Iqama

Skillset

UX Strategist

Defined UX vision and roadmap, translating business goals into prioritized design initiatives that shipped across all releases.

Stakeholder Management

Presented design rationale to executives, product, and engineering leads, aligning competing priorities into agreed scope each cycle.

User Research

Conducted interviews, usability sessions, surveys with users, converting findings into design decisions that resolved recurring drop-off points.

User Interface Design

Designed end-to-end interfaces for web/mobile product, from wireframes to production-ready high-fidelity screens using [Figma](#)

Design Systems

Built and maintained a component library and token set adopted across all products. Implemented the application using [DGA Code](#)(Digital Government Authority KSA) systems

UX Team Management

Led a team of designers, running critiques, workload planning, and quality reviews across concurrent product streams.

Cross-functional Collaboration

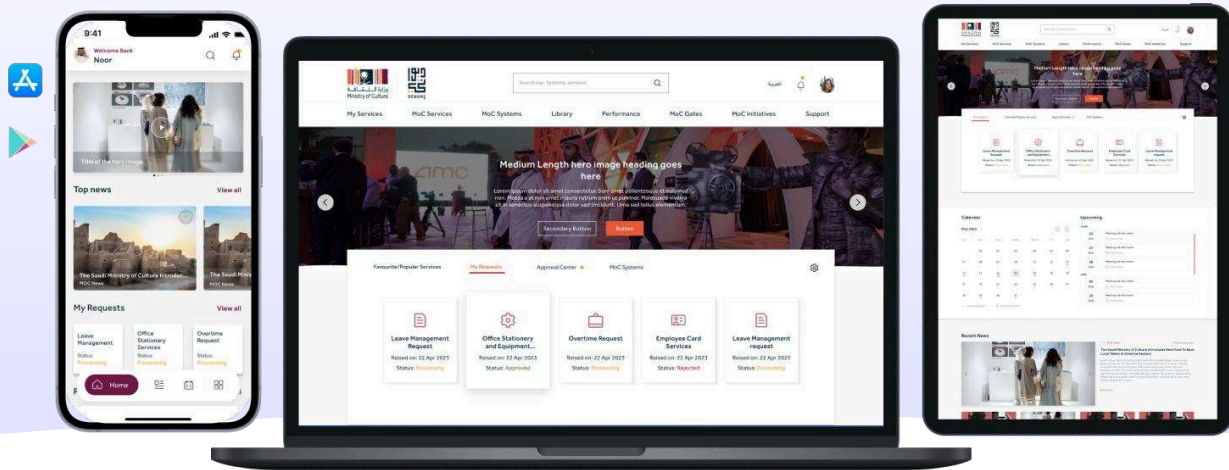

Partnered daily with product, engineering, and QA from discovery to launch, supporting implementation through to sign-off.

AI-First Designer

Used AI tools ([Claude Code](#) + [Figma](#) + [Cursor](#) + [Chat GPT](#)) and workflows to accelerate concept exploration, research synthesis, and prototype-to-code handoff.

5+ years managing Middle East projects — Arabic interface design, Saudi design culture, and KSA Design Library.

Project Dewane - Ministry of Culture

Digitized 50 employee service workflows across the Ministry of Culture and its commissions — led research, design, and usability testing to replace manual processes with fast, trackable digital requests.

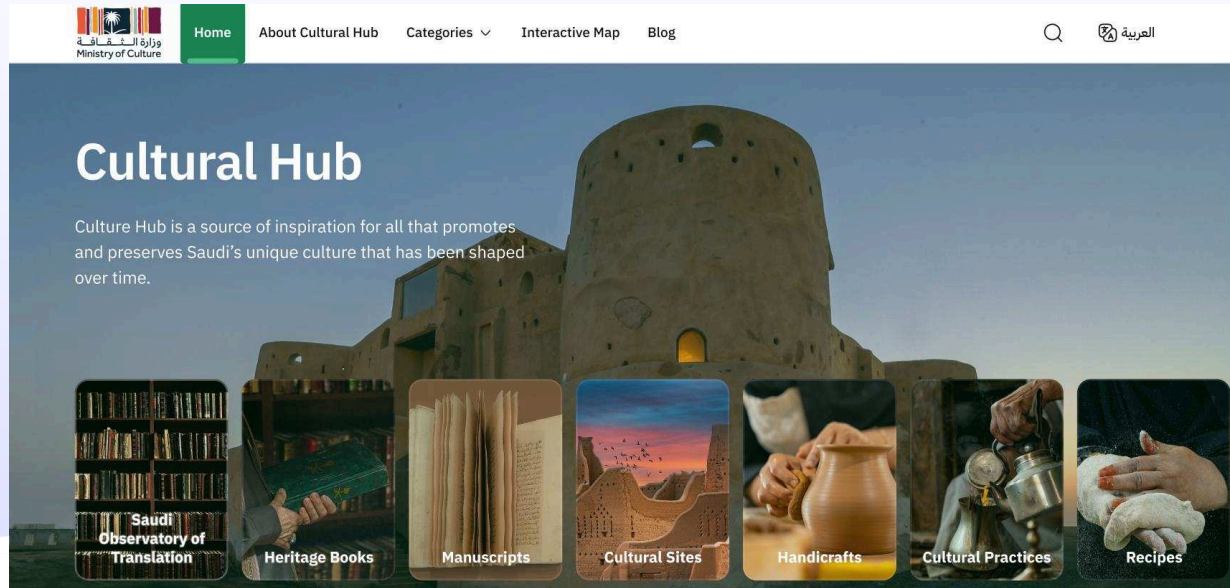

Role
Lead UX Designer

Users
MoC Employees

Application Platform
Web & React Native

Project

Cultural Hub - Ministry of Culture

Designed a public web portal consolidating Saudi cultural information heritage, events, and initiatives into a single accessible platform for citizens nationwide.
